

Streamline Your Branch Operations with Enhanced Deposit Processing

Simplify check processing while strengthening security and control

Our Branch and Teller Capture solution simplifies how your staff handles check deposits throughout the business day. By streamlining in-person deposit processes, our solution not only increases operational efficiency but also creates opportunities to improve the branch experiences.

Branch and Teller Capture integrates seamlessly with your existing systems with our browser-based interface, providing a comprehensive solution that enhances both back-office operations and customer-facing services. With its intuitive interface and robust security features, you can process transactions more efficiently while maintaining the highest standards of accuracy and security.

Key Features

- Advanced CAR and LAR OCR technology for accurate data capture
- Core-independent architecture for seamless integration
- Secure, browser-based platform with built-in controls
- Complete archival and transaction monitoring capabilities
- Real-time duplicate detection and fraud prevention
- High-quality image and data capture

Key Benefits

Operational Excellence

Branch and Teller Capture streamlines daily operations by simplifying check processing workflows. The intuitive interface requires minimal training, allowing your staff to quickly adapt and maximize productivity.

Enhanced Control and Visibility

Take control of check processing with our comprehensive online management portal. Monitor transactions in real-time, access detailed reporting, and maintain complete visibility over your branch operations. The browser-based system ensures your work is protected and accessible when you need it.

Cost Efficiency and Scalability

Reduce operational costs through streamlined processes and automated workflows. Our solution scales with your business, supporting varying check volumes while maintaining consistent performance. By eliminating manual processes and reducing errors, you can redirect resources to value-added services for your customers.

Security and Compliance

Our solution maintains the highest standards of security and compliance. The browser-based system protects against data loss while built-in controls prevent errors and detect potential fraud attempts. Complete archiving capabilities ensure you maintain accurate records for compliance and audit purposes.

**Ready to streamline
in-branch deposit capture?**

Discover how Branch and Teller Capture helps you enhance efficiency, reduce costs, and improve customer service through advanced deposit processing technology. For more information or to get started, contact your Relationship Manager or email rep@wiscubservicecenter.com.
